[REDACTED] Talked with Dorothy Fosdick who was inquiring the status of the studies which are being prepared by the Agency for the Jackson Subcommittee. I advised that we would be in touch in a few days on this to bring her up to date.

[REDACTED] Talked with Speaker John W. McCormack to advise that in view of the over-all situation the negotiations for the release of the Cuban prisoners was off and that the arrangements which the Director had described to him concerning this deal in early October had been undone. Mr. McCormack thanked me for advising him of this and indicated he thought it was a good idea to have this deal off at this time.
